HISTORY AND CERTIFICATIONS

THE BIRTH AND THE ACHIEVEMENTS

1963 — In Turin, "Giara Ganci Traino" was founded, a pioneering company in the production of towing devices

1976 — In Perugia, three artisans founded Umbra Rimorchi, specializing in the production of light trailers

1977 1994 — These two companies meet through fairs and events, giving rise to a collaboration destined to last over time

1995 — Production is united in a single national plant, strengthening the synergy between the two companies

2009 — Led by a single shareholder, the company is dedicated exclusively to the production of tow hooks, expanding its presence beyond Italy thanks to European approval, with the new name Ts Next.

SINCE **1997**

Ts Next obtains and holds international certifications and constantly updates itself to guarantee the highest quality in the production of its products.

The company was also the first company in the sector to be certified with an ISO 9001 Quality System, to consolidate its reliability.

RINA

Quality management system complying with the standard for design and production of tow hooks.

CERTIFIED IQNet QUALITY SYSTEM

Certificate Quality Management System Design and Manufactore of towbars for cars and spare parts.

TS NEXT
IN THE WORLD

LEADER IN ITALY

IN THE PRODUCTION OF TOWBARS WITH WORLDWIDE EXPORTS

Our company has been the main Italian manufacturer of tow hooks for cars and commercial vehicles for many years, with a widespread network of installers and distributors. The TS NEXT brand is widespread throughout Europe, North Africa, the Middle and Far East, with ever-growing collaborations.

Over the last year, logistics warehouses have been set up in four different countries, which will be joined by two more in the coming months. Due to the strong expansion abroad, we have created a new independent brand “UR TOWBARS”, green in color, which soon began to establish itself in Italy and is now our main product identifier.

VALUES AND STRENGHTS

OF OUR COMPANY

QUALITY

Our products represent the highest quality and reliability in the sector, the result of a constant commitment to research and innovation. This has allowed us to become the leading company in Italy in the production of tow hooks.

RELIABILITY

With us you can be sure of always choosing the best, because every product we offer is the result of meticulous attention to quality, safety and innovation. Trusting us means choosing a partner who works to offer you only the best.

CUSTOMER CARE

Our team of collaborators is always at your disposal to offer you support. They are ready to provide you with detailed information on our products, advise you on the solutions best suited to your needs and guide you in every phase, from choice to purchase.

Design and production work in continuous and dynamic synergy, ensuring a constant exchange of ideas and information. Each new product is developed thanks to the commitment of a highly specialized and dedicated technical-operational staff.

RESEARCH

Our main goal is to search for new materials and new manufacturing processes without compromising the strength, the reliability and the safety of the products.

TEST

Every single prototype that we create undergoes severe testing before being manufactured. They are also all produced according to strict EU Regulations.

COLLABORATIONS

UR has begun to cooperate with some of the most important research centres in Europe with the aim to reach high quality design standards and production and maintain low costs.

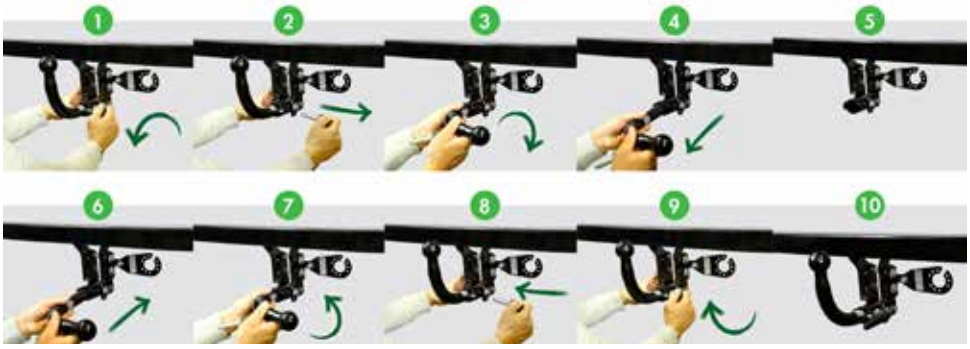
BESTSELLERS

ASSEMBLY INSTRUCTIONS

MODEL F FIXED SWAN NECK TOWBALL

This is our cost effective solution, for the consumer on a budget. The ball is secured to the tow beam through screws and bolts, and if needed it can still be removed through the use of a simple key.



Assembly instructions

MODEL C HORIZONTALLY DETACHABLE TOWBALL

The best solution for all uses, from the professional using commercial vehicles to families that use a trailer during their free time. The ball can be removed through the use of a lever with manual tightening and when not in use it can be placed in the vehicle boot. No tools are required, making this solution the best compromise for quality and price available. The lever is also compatible to lodge an anti-theft device with key, which makes the model C optimal also from the point of view of safety.

Assembly instructions

MODEL VM VERTICALLY DETACHABLE TOWBALL

For those who want only the best, the top solution is the vertical ball, that once removed it makes the fitted tow bar completely invisible. The system is technologically advanced and at the same time extremely simple and it is based on a clamping mechanism with automatic key.
It is designed to provide the same characteristics of strength and reliability of the other two, in other to maintain unaltered the aesthetics of the vehicle when not in use.

TOWBARS

FOR CAMPERS

Recently we have included in our production the universal towing beam for campers, as well as a complete series of specific attachments and extensions for each frame.

GENERAL TERMS

OF SALE

1- Effectiveness of the General Terms
The General Terms, except for possible derogations specifically agreed in writing, discipline all the current and future terms of sale between the parties.
Statements of agents, procurers, distributors or other mediators do not commit Ts Next in any way, unless they result from a relevant written document signed by the pro tempore legal representative of Ts Next.
2- Delivery
Ex-Works Ts Next plant located in Perugia.
Different terms of delivery will have to be agreed in writing with Ts Next. In any case the goods always travel at the buyer's risk.
3- Prices and taxes
Prices shown in this price list are to be considered exclusive of VAT.
Unless otherwise agreed, the Ts Next price list in force will be applied at the date of conclusion of the contract.
4- Terms and conditions
Unless otherwise agreed in writing, payment of the prices and of all other amounts due for any reason by the Customer to Ts Next will have to be made to the seat of the firm or if necessary in an other place previously indicated in writing by Ts Next.
The Customer will have to make the payments exactly in compliance with the terms and conditions agreed with Ts Next. The non-compliance with the terms and conditions, releases Ts Next from the fulfilment of the delivery obligations, in the case that the delivery has already taken place, the non fulfilment of any obligation by the Customer subsequent to the delivery, will involve the loss for the Customer of any benefit agreed in his favour and will therefore give Ts Next the right to demand payment of the whole residual amount, in addition to the interest, starting from the expiry date to the actual payment at the nominal 8% annual interest rate, or if higher, at the rate of the Legislative Decree n° 231/2000 art.4 (where applicable).
Where the delay in payment exceeds 30 days from the expiry date, Ts Next is in any case in the right to rescind the contract, except for damage compensation.
5- Complains and products restitutions
Possible complaints with regards to obvious faults (such as packing, quantity, colour, number and exterior characteristics) will have to be notified to Ts Next by registered letter within 8 days of the delivery date of the products or forfait the right to reclaim. Possible complaints with regards to concealed faults (flaws that cannot be identified through scrupulous inspection at the moment of delivery) will have to be notified to Ts Next by registered letter within 8 days of discovering the flaw and anyway not more than 12 months from delivery or forfait the right to reclaim.
It is understood that possible complaints or claims do not give the Customer the right to suspend or delay payment of the products in dispute. The products cannot be returned if the restitution hasn't been previously authorized in writing by Ts Next.
The unauthorized restitution will not in any way effect the rescission of the sales contract and so Ts Next will have the right to demand the due payment.
The faulty products will have to be delivered directly to Ts Next or to an authorized Ts Next Customer Service at the Customer's expense. Any complaints or delivery made to agents, brokers, distributors and other mediators will be of no effect in accordance with the present paragraph.
6- Flaw guarantee
Ts Next guarantees the conformity of the products supplied as explicitly agreed. The guarantee for flaws is limited to defects in design, material or manufacture for which Ts Next can be proven to be responsible. The Customer loses the right to the guarantee if:
- he doesn't use the product correctly;
- he assembles or disassembles it without scrupulously following the fitting instructions and using non-original parts:
- he hasn't taken care of the maintenance and preservation of the products in accordance with the indications of the fitting instructions;
- he has modified or tried to fix the product without the permission of Ts Next.

Ts Next undertakes to rectify the above mentioned flaws, lack of quality or defects in conformity of the products for which Ts Next can be proven to be directly responsible which may occur within twenty-four months of delivery, if the defects are brought to their attention immediately in accordance with art.5 and only in the event that the presence of the reported flaws are confirmed by an Ts Next authorized Customer Service Centre or directly by Ts Next.
Ts Next can choose whether to repair or substitute the faulty products, except in the event of fraud or gross negligence by Ts Next the compensation for damage for the Customer cannot however be more than the part of the amount indicated in the invoice which the Customer has already paid.
The guarantee referred to in this paragraph absorbs and substitutes the legal rules and regulations of the guarantee for defects and excludes any other liability of Ts Next originating from the products supplied; therefore, the Customer can not boast claims that do not conform to the conventional rules of the guarantee, such as, for example, claims for damage, reduction of price or rescission of the contract. Elapsed the warranty period no claim can be made against Ts Next, in any case.
7- Documents and testing and registration fees
The documents for the testing of tow bars and for the registration or coupling of trailers, are included in the price list; the cost of its papers is to be borne exclusively by the Customer.
8- Discipline of the guarantee in the event of applicability of the Consumer Code
Provided that there are the subjective and objective conditions for the application of the Consumer Code, the provisions of Title II - Liability for defective products - and Title III - Legal guarantee of conformity and commercial guarantees for consumer goods will be applied to the sales made by Ts Next - Legislative Decree 206/2005.
9- Jurisdiction
For any dispute concerning rights and obligations arising from this contract the Court of Perugia will have jurisdiction.
